TRIBUTE TO FOUNDERS

A HEART TOUCHING TRIBUTE TO THE FOUNDERS

Murti Sthapna Divas: 5TH JULY 2022

Our founders must be happy to see that their seed has been grown into a huge tree. Thousands of children have fulfilled their dream and accomplished their life visions. We feel blessed to give tribute to our founders on July 5th, 2022 by "Murti Stapana" after the demise of Smt. Roshini Devi in the year 2021. Our Founders used to say that the school builds the character of its children by giving importance to high moral values therefore, the school must focus on moral education. During their Lifetime both of them served with pride, led with confidence, and inspired everyone to improve the world and make it a better place to live in.

SR Capital Public School is the vision of Late Dr. Sahib Ram Yadav and Smt. Roshini Devi. They believed in contributing to humanity. Doctor Sahib served society through his medical services. They were passionate about education because education not only empowers the individual but also brings happiness to the life of people. Education is the best way to serve society.

Dr. R.K Yadav
Chairman

JOURNEY OF 40 YEARS

SR Capital Public School has pursued a long journey of 40 years. The school has transformed into HIGH PERFORMING LEARNING ENGINE from a low-cost budget school. We have evolved our teaching pedagogy from rote learning to activity-based learning over the period of time. We proudly say that our education model is at par with the international standards of education. This is a feeling of huge satisfaction that the delegates from various backgrounds especially from the education sector praise the model of education at our school. We are not only imparting academic knowledge, but we are also working on the social, emotional, mental, intellectual and physical development of our children.

I have a spiritual connection with my school. Every day where students are waiting for me in their classrooms, it feels like life to me, nothing is life apart from it. Whenever they ask, why I was not there in their class the day before, their love and affection give me a new energy every day. We have faced tough times on many occasions, as they say, every cloud has a silver lining. We overcame every difficulty together and become stronger. Time flies like nothing else. We have reached a niche together. I am contented with the efforts that we are doing at SR Capital Public School for the growth and development of our students. But no great tasks are done by a lone person therefore, praise the efforts done by the teachers of this school to complete this uphill task, and I owe a lot to them for this. Also, I want to congratulate my team on publishing the 4th edition of Sunshine magazine. I wish our children must fulfill our school vision to prepare sensitive youth who are willing to devote their services to uplift society and our nation, in that way, we can contribute to humanity.

Thank you parents for having faith in us for the education of your children. We are committed holistic development of our children so that they can shine in the world.

Mrs. S.K. Yadav
Principal

ACKNOWLEDGEMENT

FROM SOUL

Today the role of the school is not only to pursue academic excellence but also to motivate and empower the students to be lifelong learners, critical thinkers and productive members of an ever-changing global society.

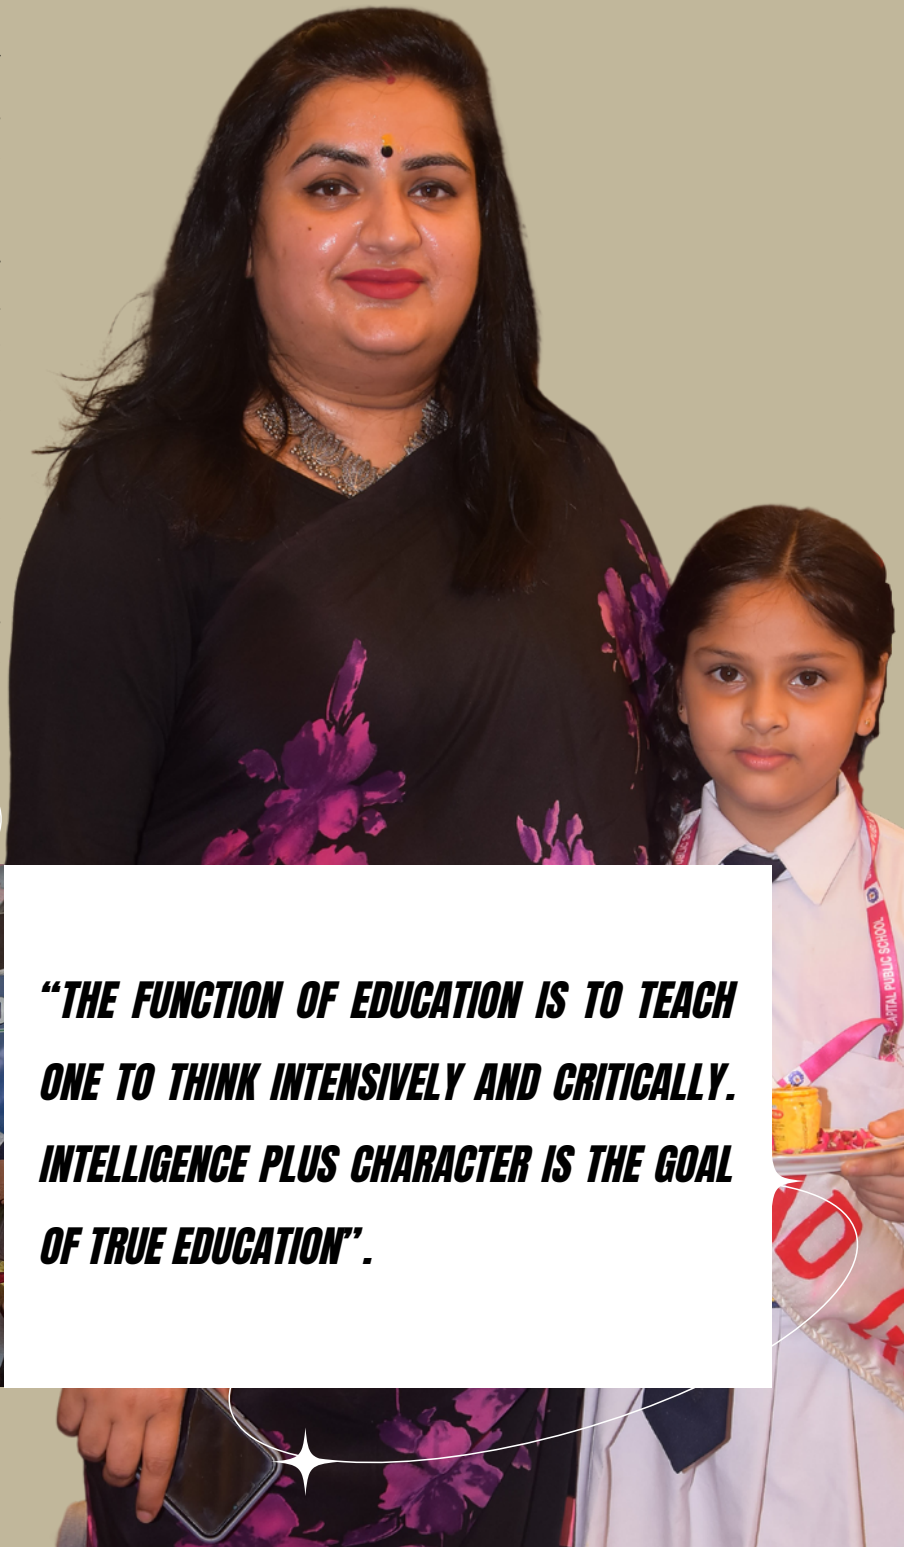

We at SR CAPITAL PUBLIC SCHOOL, endeavor to provide sufficient opportunities to each student to understand and discover himself or herself and to face and overcome challenges presented to them to make school life fulfilling and complete. Providing good quality modern education including a strong component of cultural values, environment awareness and physical education is the prime motto of our school.

A committed and supportive management, dedicated teachers, caring and cooperative parents blend harmoniously to create our school as a child-centric school. We are NEP2020 ready school.

With warm wishes and regards,

Mrs. Smriti Yadav

Vice Principal

“THE FUNCTION OF EDUCATION IS TO TEACH ONE TO THINK INTENSIVELY AND CRITICALLY. INTELLIGENCE PLUS CHARACTER IS THE GOAL OF TRUE EDUCATION”.

Mrs. Gurvinder Kaur
Academic Coordinator

FRIENDSHIP

A Bond between a Teacher and a student

A classroom is not merely a classroom when a student recognizes his teacher as a friend, guide, philosopher and so on a classroom becomes a congenial environment for a teacher and a student when they trust & keep faith in each other. The students trust them enough to share their personal problems like friends and genuinely respect their teachers as their mentor and always keep these memories in their minds life long.

FUN TIME
its OUR time

GEOMETRICAL SHAPES SCENERY ACTIVITY -:

Our students made scenery of geometrical shapes. They learned Learning by doing through the geometrical shapes and made scenery with the help of shapes. They learned how each shape is different from one another .

FAMILY TREE MAKING -: *Kids need to explore genealogy in an interesting way so that they learn about their family history and heritage because family bonding is necessary and an important part of every child's life in his/her growth and learning. Creating a family tree is a wonderful tool to help a child visualized his/her family picture in his mind and heart*

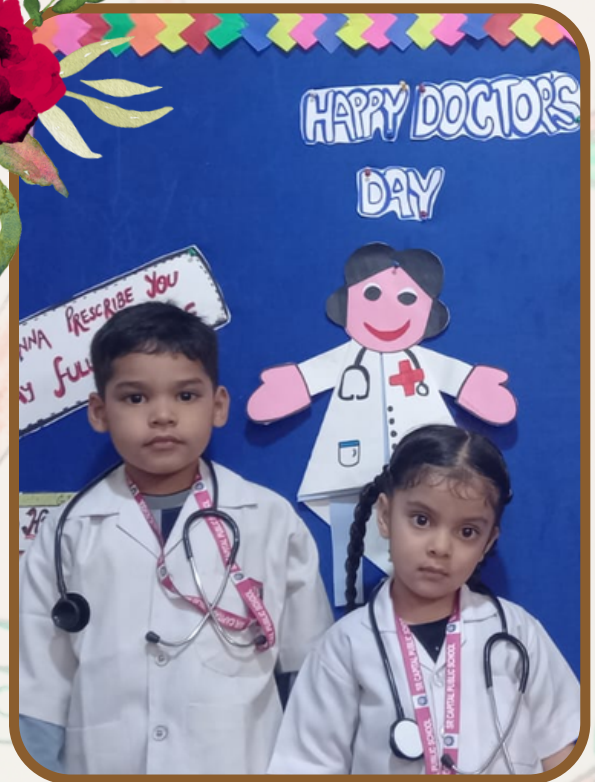

It was an enthusiastic and exciting day when the little tiny tots came to school after a long gap of the covid period. They were so excited that their expressions can not be written down in limited words. Their smile, their grit, their curiosity and so on, everything was special and appealing. After all, they had come to their school after a long time to meet their teachers and friends. A glorious moment that was for the children as well as for the entire staff of our school.

Small Artist

EVENT OF THE MONTH

The kindergarten of SR Capital Public School organized the activity on Doctor's Day on 1st July. The students made Doctor's kit and stethoscope with paper folding and hairbands. They understood the importance of Doctors in their life and also how doctors play an important role in society.

Salt Activity:-Our school always give focus on learning by doing. So, we have started the activities from the Montessori level. In Nursery class, we have arranged an activity "Salt Activity" by which they learnt how to develop their fine motor skills and how to grip a pencil in between their fingers. Students enjoyed this fun activity.

SCHOOL

Achievements

One of the most glorified moment for the Team SRCPS for standing as a Second Budget Private School for the last 4 years in all India ranking conducted by Education World.

LEADERSHIP AWARD 2021

A leader is one who knows the way, goes the way and shows the way and that is what the Managing Director of SR Capital Public School, Mr. Lakshya Chhabaria reflects in his working style.

Gulshan Kumar Film and Television Institute of India and T series Stage Works Academy took pride in appreciating him for his hard work, innovative ideas, excellent approach towards motivating his team and making school education digitally possible during the toughest time of the pandemic. His persistent efforts and exemplary vision toward providing inventive and high-class education to society made him an admirable leader in the field of education.

NAVNIRMAN

The school was honoured to be invited to attend a mega event Navnirman sponsored by Centre For Civil Society and Project Bolo English at India Habitat Centre. It was an initiative for the well being and education of students through every possible method and to improve the standard of education as always, come what may. The event was graced by the kind presence of esteemed Chief Guest Shri Gurcharan Das, the CEO of Proctor & Gamble.

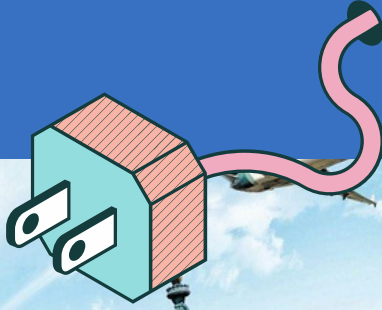

The stars of the event were Team SRCPS along with Nivida and Avadh Sharma, the students of our school, who were felicitated in the event.

LIFE VALUES

The ultimate mission of SR Capital Public School is to make our students be good human beings and always believe in themselves and we believe that honesty is the most important virtue. It is well said that honesty is the best policy. In our school, this virtue is being conveyed to the students in different ways. To start afresh the Morning Assembly begins with infusing positivity through moral stories named Nayi Peהל. The stories are enacted by the students in the assembly and Principal Ma'am appreciates and awards them. The students are motivated to share the moments when they showed this virtue. Our school tries to inspire and motivate the students in many ways so that they can become honest citizens. We are so proud to publish that our school has won the Hem Virtue Excellence and Hem Shree award 2022 by the Hema Foundation which is driven by a single goal of imparting quality and value education to our students and making the world a better place to live in. Our star performer Ishpreet Kaur of class IX has made us proud by securing 3rd position in Hem Sampark Mega Quiz Contest. Our students have won 3 gold, 3 silver and 7 bronze trophies for their active participation in the activities conducted by Hema Foundation.

**RADIO
VAHINI
FM 91.2**

RADIO TALK SHOW

The most promising rising stars of SRCPS have been provided opportunities for candid conversations to improve their communication skills. Our students have been invited twice as Guest Speakers at Radio Vahini FM, run by National Institute of Open Schooling. It was a great learning and fun experience for the children.

MY DREAM

Yash Goswami

VI Sunflower

My name is Yash Goswami from 6th Sunflower SR Capital Public school Naveen Shahdara. I want to become an IAS officer. So that, I can serve my country and society and maintain the spirit of the Constitution as the steel frame of the country. Taking decisions in the national context, strengthens the unity and integrity of the country.

Jai Hind. Jai Bharat

Greetings of the day everyone! I am Vedic, a student of VIII Lotus. My dream country is a powerful and developed India. I have studied that in ancient India, there were treatments like organ transplantation and unbeatable weapons like Brahmastra. India was the country of brave warriors. It amazes me when I read that great king Bharata counted the teeth of a lion in his childhood.

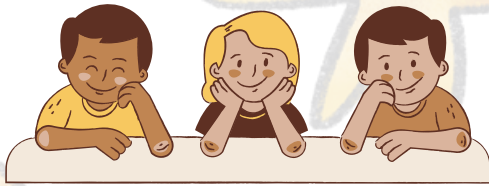

My dream is to become a software engineer. I am fascinated by the app and therefore I want to create my dream apps like the 3D Game app. The unique part of these apps would be ancient and Vedic India. We are taught about brain drain in our school and we also notice that many talented people of India are working for foreign countries. I think it is making India's progress slower. I would work for my nation and bring change. I am learning to code and I can create a calculator using Python. I am working on it side by side. I believe one day, I will bring a change to society through my apps.

Vedic Tyagi

VIII Lotus

MY DREAM

Jagmeet Singh

VIII Lotus

Hello everyone! my name is Jagmeet Singh. In the last couple of years, we have seen a drastic change in our lifestyle and health. The pandemic almost killed us. It came like a lesson. That is why I aspire to be a doctor in the future. Doctors are saviors of our lives in tough times. As they say, doctors are next to God, saving so many lives and giving comfort to the countless. I will certainly work hard to fulfill my ambition. Doctors have emerged up as great motivators when we lose all hopes in life. Doctors come up as angels. I would be very happy to save the lives of people in pain and discomfort.

My name is Vansh Jatav from VI standard, S R Capital Public School in Naveen Shahdara. A career in engineering gives you the opportunity to solve problems and design things that really matter. As an engineer, I can use my God-given talents to find solutions that no one else has thought of. It's an opportunity to make my mark on the world. Vande Matram.

Vansh Jatav

Great thoughts

SAYING *NO* TO A TASK ASSIGNED TO YOU IS ACTUALLY MISSING AN OPPORTUNITY TO PROVE YOURSELF.

Mrs. Bindu Bhatia (Activity Coordinator)

"ALWAYS ENLIGHTEN YOURSELF POSITIVELY BECAUSE NO ONE WILL FOLLOW YOU IN DARK NOT EVEN YOUR SHADOW."

Mrs. Garima Sukhija (Science Teacher)

"SELF-INTROSPECTION IS NECESSARY FOR EVERYONE. THIS BOOSTS OUR ENERGY & VIRTUES AS WELL AS KEEPS THE VICIES FAR...AWAY...."

Mrs. Vidhi Jain (English HOD)

LIFE IS ALL ABOUT LEARNING NEW THINGS AND GAINING NEW LIFE EXPERIENCES. NEVER GAVE UP IN LIFE. WE CAN IMPROVE OURSELVES, THERE'S SO MUCH PLACE FOR SELF-GROWTH.

Vaishali Sharma (Social Science)

LIFE IS NOT ABOUT PROVING YOURSELF TO BE PERFECT....IT'S ACTUALLY ABOUT ACCEPTING YOUR IMPERFECTIONS AND BE A BETTER VERSION OF YOURSELF.

Mrs. Bindu Bhatia (Activity Coordinator)

THE GREATEST OF PEOPLE HAD FAILED MANY TIMES IN THE BEGINNING. SUCCESS DOESN'T COME EASILY, KEEP TRYING, EVEN HARDER FOR THAT WE ARE INCAPABLE OF.

Mrs.Santosh Kumari (Social Media Coordinator)

Versatile Genius

Ishpreet Kaur

Tomorrow belongs to those who prepare for it today. Let's talk about one of the students of SR Capital Public School who has already proved her potential in many fields. She is none other than Ishpreet Kaur of class IX Rose. She is motivated, proactive, studious, focused, sincere and possesses all the qualities of an ideal student. She has made the school proud by qualifying many Olympiads like NAAT, Hem Sampark Mega Quiz Contest, and secured 3rd position at National Level. She has also been invited as guest speaker by Radio Vahini at NIOS.

Nividha

Nivida is a student of fifth sunflower of SR Capital Public School participated in Bolo English classes and visited at India Habitat Centre. She won first position in Hasya kavita pratiyogita. She represented kumaon House.

Bhairavi Sharma

Bhairavi Sharma is a student of Seventh sunflower of SR Capital Public School, participated in many school solo and inter house activities. She got many certificates because of her performance such as 1st position in fancy dress, 2nd position in Inter House Hindi skit competition. She is also learning judo. She won first judo competition on 10th July 2022 & got 3rd position.

THE SOUL MAKERS

Mrs. Neha Jain
Academic Coordinator

आ नो भद्राः क्रतवो यन्तु विश्वतः

मानवीय गुणों के संस्कारों से अनुप्राणित जीवन जीने की व्यवस्था संस्कृति कहलाती है। विश्व परिवार 'वसुधैव कुटुम्बकम्' की भावना के साथ सब का हित चिन्तन भारतीय संस्कृति का मूल आधार है।

A student is like a canvas to be painted. The environment at home and school helps to build the persona of an individual through the experience they live and feel at these places. Especially after COVID, when the study pattern and lifestyle of an individual has been affected, it becomes much more important to strengthen the values within the school system.

At SR Capital, students imbibe values which help them find DISHA (Discipline-Integrity-Simplicity-Honesty-Acceptance) in their life and pave way for their happiness.

Our actions help them respect diversity (culture, beliefs, opinions, gender etc.) in their society. Our students display a positive attitude towards peers, adults & community. We teach them to gain ability to find happiness within themselves. We help them to have a kind, helpful & responsible behavior towards other beings which makes them having an empathetic view of the world.

OUR VISION

Discipline

Integrity

Simplicity

Honesty

Acceptance

The house of knowledge

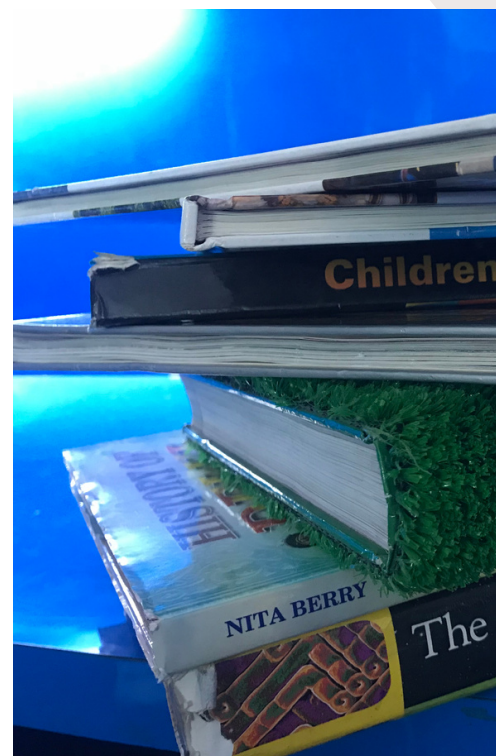

LIBRARY

Connect to your inner self

A library may be large or small. Some people think libraries have to be a large to work well but this is not so. To make the best use of school books we need to organize them carefully. Our school library aim to stimulate children's curiosity about books and to encourage students to start loving the written words. Students who regularly look up information in books will improve both their work form and their reading skills. Libraries are also very useful for everyone. Libraries are a source of information for everyone, not just for English student. This is especially so if the school library has stock which can give knowledge to students, (both general knowledge and specific information from set text books) provide explanations, e.g. about how coal is made etc. satisfy students curiosity and interest in life offer art, craft, music, dance and cultural information. Using the books and other stock in the library will help students prepare their lessons better. It may also encourage teachers to give students project work that asks them to go to the library and find out information for their form work. This will encourage students to study, learn and achieve better results as well as give them the confidence to start looking for information on their own. Our school library provides photocopies, printout of desired material. The school library provides computer facilities to the students with internet. To upgrade the student's mind, we also have a smart T.V. Our library is the heart of our school and students love their library.

"MAKE BOOKS YOUR BEST FRIEND. THEY
HELP YOU IN EVERY STAGE OF LIFE"

Mrs.Pratima Kalra
Librarian

LEGENDS

Sports Day

Every year SR Capital Public School organises sports day. Previously it was held on 28 and 29 January 2020 at Commonwealth Games Venue Delhi. It was titled Hausla 2020. Various games and sports were organised for the students such as lemon race, sack race, 100 metre race, 200 metre race 400 metre race, banana race etc, to name a few. A cricket tournament was also organised on the other side. There were renowned guests from sports, education and other fields, present to mark the day. It was wonderful to watch the sight of fighter jets which were flying up in the sky while the sports events were going on. Sports coaches and the SR team enjoyed the energetic event.

Opportunities

SR Capital Public School has been providing opportunities to students for the last forty years to go ahead in sports. In the year 2020 in Bikaner Rajasthan, our students Janvi, Ansh Aggarwal, Faiza Khan, Shubham Goel and Rudraksh Arora won the national championship of tug of war. These students have become the inspiration for the students who aspire to be great in sports.

LEGENDS

Zonal Sports Competitions were held in SR Capital Public School in the month of July recently. Various zone schools participated in it with enthusiasm as pandemic had affected such events. We are so proud of our student Pratham who is a student of VI class, he has tremendously performed in the zonal level and secured 2nd position.

In the sub junior table tennis Ishank Dhir, Lavith Bansal and Hardik secured III position. In Senior table tennis match Tushar Yadav and Pratham had II position. The day was really enthusiastic and all the students showed the sportsmanship spirit

The students who performed well in the table tennis match are Albiya Khan, Bhawna, Shubhi, Yukti, Chandni, Aardhya and Nishi. On the other side, the following student's performance was very good Ishank Dhir, Tushar, Hirdaya Memoria, Arjun, Prateek, Lavith Bansal.

WE ARE THE LEADERS

MALGIRI

Relationship

BETWEEN TEACHER AND PARENTS

Both parents and teacher play a pivotal role in educating a child. Parents are the first and the teacher is the second mentor of the child. Good communication between teachers and parents always motivate and boost the academic scores of the child. When teachers partner their ability to inspire thought and creativity with the foundational support of the parents then only the students can be better prepared to have a good school experience. Students develop a unique trust in their teachers only when both the parents and teachers have a positive connections. Thus, we always try to reflect on the feedback from the parents timely.

**Mrs. Neetu Chadha
(Academic Coordinator)**

AATM NIRBHAR BHARAT

MADE IN INDIA

It is well said that necessity is the mother of invention .Even after India was liberated from British rule in 1947, it was dependent on other countries for many products. But today's India is becoming self- reliant in every field. Aatmnirbhar which is a Hindi word, meaning in English is "self reliant". Which also refers to less dependency on others or not being dependent on others at all .

SR Capital Public School was delighted to take a step forward in this direction. On the auspicious occasion of Gandhi Jayanti the school launched a three weeks campaign which was held in three phases: THE first week(the first phase) was given to the Art lovers .

Let an motto of power
By Anantoni

Art gives a meaning to our lives and helps us to understand our world. It is essential to surround ourselves with art created by others. Art introduces us to a whole new set of experience and so keeping this in mind the students were taught to prepare articles like paper bags, envelopes, idols- Shivaling, items for home decoration, pot makings, glass painting and so many other things. It was a new and unique experience for the students to become self reliant in future

TOY FAIR & ART EXHIBITION

Art Exhibition - An art exhibition is a space where a work of art meets its audience with the key objective of bringing out the hidden talent of the students. Our school organized a very interesting Art exhibition of the students this year in the month of July to showcase the students' creativity. About 1000 students from standard 1st to 10th of our school displayed innovative talent. The parents also came to see the various pieces of handwork of such high standard exhibition which were attractive and colorful and had been designed well by the students under the guidance of their Art teachers. There were many subjects for the students to draw their paintings on based on the Art Integrated learning. Painting on natural scenery, flower painting & sketches etc. The great attraction was puppets, photo frames and masks were also admirable. Clay modeling on terrace farming physical features like hills and mountains were also the center of attraction. Every year students utilize the waste material and make different things out of it like solar systems, volcanoes different monuments, abacus, life cycle of different species, etc.

Such innovation has a special price and unlimited appraisal.

Toy Fair - SR Capital Public School where play is the language and toys are the words. It instills a love for learning. Our honorable Prime Minister, gave wings to this thought, by taking the initiative in this area to make India independent in this skill. Thus, we organized a toy fair in our school in the month of March having the vision of Aatm Nirbhar Bharat. At the fair, all the toys were made which contributed to the all-round development of our children. All the toys were prepared by reusing and recycling the waste materials and the colors used in them were also natural and safe. The toys were theme based on the Indian Mythology and so on. Children prepared the toys and puppets of Hindi Idols too. The main attraction of the fair was Bioscope.

Through this fair, our school tried to take the world towards eco-friendly toys and promote Indian mythology.

With an aim to understand the Indian culture in an interactive way as well.

**Ms. Yogita Goel & Mrs. Kavita Chauhan
(Art & Craft Teacher)**

आज़ादी का अमृत महोत्सव

कला के क्षेत्र में एस आर कैपिटल पब्लिक स्कूल ने जो उन्नति की है वह सराहनीय है क्योंकि हमारे स्कूल में एक भारत श्रेष्ठ, भारत अनेकता में एकता पर बल दिया गया है। भारत के विभिन्न सांस्कृतिक कार्य कार्यक्रमों की झलक इसके इसमें कला के माध्यम से दर्शाई गई है। इसमें दिखाया गया है, कि हम सब एक ही हैं। 75 वर्षों के भारत की उन्नति के पथ पर बढ़ते हुए कदमों की झलक कला के मर्मज्ञ द्वारा दर्शाई गई है। इसमें भारत की उत्कृष्ट व सराहनीय कार्यों को कला द्वारा दर्शाया गया है। यदि भारत के वैज्ञानिक क्षेत्र की बात की जाए तो कला द्वारा मिसाइल का प्रदर्शन एसआर कैपिटल स्कूल में दर्शाया गया है। जिससे कि छात्रों की संपूर्ण जानकारी मिल सके। भारत यदि देखा जाए तो खेल में भी किसी से पीछे नहीं हैं, एम एस धोनी और उनकी टीम में भारत वर्ल्ड कप दिला कर एक उत्कृष्टता हासिल की यह हमारी कला के क्षेत्र में भी दर्शाया गया है। देश के शहीदों की जानकारी कला के विभिन्न विचारों द्वारा प्रदर्शित की गई है, क्योंकि देश उन शहीदों को शत-शत नमन करता है इसकी एक झलक कला के माध्यम से हमने प्रस्तुत की है। वेद भारत के महान ग्रंथों में से एक हैं उनकी संपूर्ण जानकारी कला द्वारा छात्रों को समझाई जाती है, जिससे कि स्कूल का हर छात्र अपनी प्राचीन ग्रंथों को समझ सके। हमने कला के माध्यम से 75 वर्षों से भारत की प्रगति की ओर बढ़ते हुए कदमों को दर्शाया है जिससे कि सभी छात्र यह समझ सके कि हमने कितनी उन्नति की है।

MUSIC & DANCE

आत्मनिर्भर भारत कविता लिखने का सौभाग्य प्राप्त हुआ जब मेरे विद्यालय द्वारा यह कार्य मुझे सौंपा गया। तब मेरा यही उद्देश्य था कि 'आत्मनिर्भर भारत कार्यक्रम' में, स्वयं रचित कविता के द्वारा हम पहल करें। इसके लेखन के पश्चात इसको स्वरबध भी हमने स्वयं ही किया। कविता से गीत तक का सफर तय हुआ। इसके पश्चात हमारे विद्यार्थियों ने इसे लय पूर्वक हमारे अतिथियों के सम्मुख प्रस्तुत किया। इस गीत के माध्यम से जन-जन तक यही संदेश पहुँचने की कोशिश की गई कि स्वयं पर भरोसा करें, आत्मनिर्भर बने, अपनी प्राचीन पद्धति योग को अपनाएं और स्वस्थ रहें। स्वयं से तैयार की गई चीजों का देश विदेश में निर्यात अधिकाधिक हो, आयात पर हम कम से कम निर्भर रहें।

श्रीमती सुजाता गौतम
(संगीत अध्यापिका)

देश से है प्यार तो

देश से है प्यार तो
दृढ़ निश्चय करना चाहिए
आत्मनिर्भर हम बने
यही यत्न करना चाहिए
सिलसिला हर दौर में
यूं ही चलना चाहिए
आत्मनिर्भर हम बने
यही यत्न करना चाहिए
योग से खुद को बनाओ
स्वस्थ सक्षम और निडर
निर्यात का हो स्रोत हम
आयात पर निर्भर हो कम
स्वयं पर करके भरोसा
आगे बढ़ना चाहिए
आत्मनिर्भर हम बने
यही यत्न करना चाहिए

श्रीमती सुजाता गौतम
(संगीत अध्यापिका)

ZONAL ACHIEVEMENTS

Zonal Competitions were held in the year 2021-22. SR Capital Public School has come out in flying colours in various zonal music and dance competitions. Senior girls won the First position in instrumental music competition and Junior girls also came out victoriously getting the First position. In Vocal Classical music, Senior girls won the First position and Junior girls got Second position. The dedication of music department won other prizes too which were patriotic song Third position, folk song Third position, Solo Classical Dance First position and folk dance First position.

District-level music competitions were a delight to the ears and soul. The students of SR Capital Public School emerged winners in various music competitions. Senior girls and Junior girls won the First position in instrumental music. Vocal Classical music is not an easy task. Every note is important to touch the heart. Senior and Junior girls won the Second position in it. Folk dance is our culture, it represents India. Our students practised a lot to give their best performance and they won Second position in Folk Group Dance and Solo Classical Dance at the District level to make us proud.

DISTRICT ACHIEVEMENTS

Honour TO THE FATHERS

भावनाओं का कैसे कंठ समर्पण, गायन, वादन, नृत्य से कंठ मन की बात अर्पण

एस आर कैपिटल स्कूल के प्रांगण में 'फादर्स डे' कार्यक्रम के माध्यम से विद्यार्थियों ने अपने हृदय की बात अपने पिता के समक्ष नृत्य के माध्यम से प्रस्तुत की। मनोभाव चाहे हास्य हो 'बापू सेहत के लिए तू तो हानिकारक है' या स्नेह, प्रेम जाहिर करना हो 'सबसे प्यारा कौन है पापा मेरे पापा' या करुण हो 'बाबा मैं तेरी मलिका टुकड़ा हूँ तेरे दिल का' जैसे गीतों पर नृत्य कर स्कूल के छात्रों ने अपने अभिभावकों को प्रसन्न किया।

श्रीमती दीपिका कौशिक
(नृत्य अध्यापिका)

पिता तुझे सलाम

बहुत प्यार है मुझे मेरी माँ से,
लेकिन पापा के बिना मैं ऐसी ही हूँ,
जैसे कोई परिंदा बिछड़ जाए, अपने
आसमां से,
मेरे पापा ज़रूरतों की जमीन पर, पेड़ की
तरह खड़े रहे,
पैरों में सौ दरारे थी,
फिर भी घर की चार दीवारें थामे खड़े रहे,

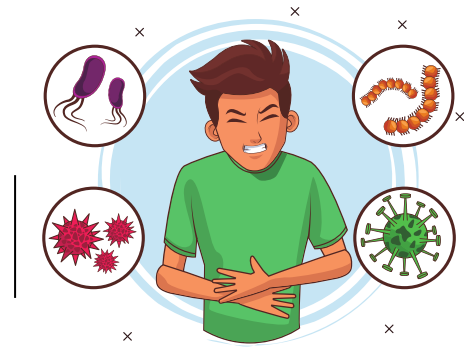

आज हम उस महानायक को सेलिब्रेट
करेंगे,
जिसके त्याग को इतिहास की गवाही नहीं
मिली,
माँ के हिस्से में करोड़ो पन्ने आ गए, और
पापा की कुर्बानियों को लिखने के लिए,
समय की स्याही नहीं मिली।

सदियों से आधी अधूरी है जो कहानी
आज पूरी करके सुनाएंगे।
जिसने हमारी गुल्लक में सपने भरे,
आज उनके लिए गुनगुनाएंगे।
माँ तुझे सलाम हज़ारो बार
लेकिन पिता आज तुझे प्रणाम कहेंगे।

MEDICAL CAMPAIGN

The health and hygiene of students in school is a concern for the authorities. Medical check-up camps were organized for Complete health Check-up in the school premises for the students on regular basis. Our school even provides regular medical first-aid to the students in the premises.

SR Capital Public School has been active when it comes to health and related issues even in the times of pandemic. We have distributed free homeopathic medicine to improve the immunity. On 23rd of July a Covid-19 Vaccination Camp (First, Second and Precaution dose) was held in the school premises to help the local people of our society.

A routine medical camp for all students was held in the school premises to check the height, weight, eyes, dental hygiene etc. This medical camp spread health awareness among students.

School medical service is always ready for the needy students

Inter House Activities and Team Senators Team work divides the task and multiplies the success. The new academic year 2022-23 calls out for new opportunities for all the students elected as senators at SR Capital Public School. To mention, we have five houses named Aravali, kumaon, Neelgiri, Satpura and Vindhya House. The house on duty performs its day to day activities in systematic and disciplined manner. Each house is managed by house Incharges house captains and prefects. They prepare and select students for Inter House Competitions which are organised according to our planner by the HODs of Literary Club, Maths Club, Eco Club ,Socio Club,Art and Craft Club, Healthy Living Club,Music and Dance Club and Sports and Yoga Club. These Inter House Competitions provide the students opportunities to show their potential, caliber and talent. The credit for the smooth functioning of the entire network goes to team Senators who are selected on the basis of their academic result, their overall performance, behaviour, communication skill and their performance in the Inter House and Inter School Competitions in the previous years. We wish them all the best for their future endeavours.

WHY I LIKE ENGLISH?

I like English because now a days, it is a global language. Every person knows the importance of it . It is a popular language in India from British time. When Britishers came to India, they spoke in English. Many people think that it is a tough language but my dear it is so simple language & it can be learnt by practice. Now a days without the knowledge of this language we can't explore the world. Without the knowledge of English we can't connect us to the global people. It is a language of trade & business. That's why I like English the most. It is the need of the time.

Ipshita Srivastava
IX Rose

Good manners are the backbone of the society. They make a man complete and form an essential part of a Civilization. Without them a man is like an orphan without any one to look after him. They are the outcome of good breeding. A person who has been brought up in a good environment must have good manners. We may even call them the flower of mankind's garden because of a man is known by his manners. They make the machines of life run smoothly and methodically. In our life we have to learn manners. If we do not teach a child to behave properly he will become rude, rough and savage. A cultured men always shows his grace. Good manners will make a man useful member of the society, the land of the colour and grace. Courtesy is the foundation stone of good manners. We should be courteous and polite. In no case, our temper should go away. We should be polite even while turning down the unfair request of others. We should show respect to the people who are older. We should be considerate to women and children. We should not think ourselves superior to our friends. A man of etiquettes, never speak things that hurt others. He always shows deep regard for all. Good manners, kindness and sympathy should be showed towards all.

"For leading a successful life, we must adhere to good manners".

BOLO ENGLISH

English is an International language. Its a language of global communication. We are fulfilling the aspirations of our parents by teaching English skills to our children. We have completed several tasks assigned by Team Bolo English. Also, the certificates and Amazon vouchers have been presented to boost the morale of students. This is a great appreciation for students, parents and teachers.

Mrs. Bindu Bhatia
(Activity Coordinator)

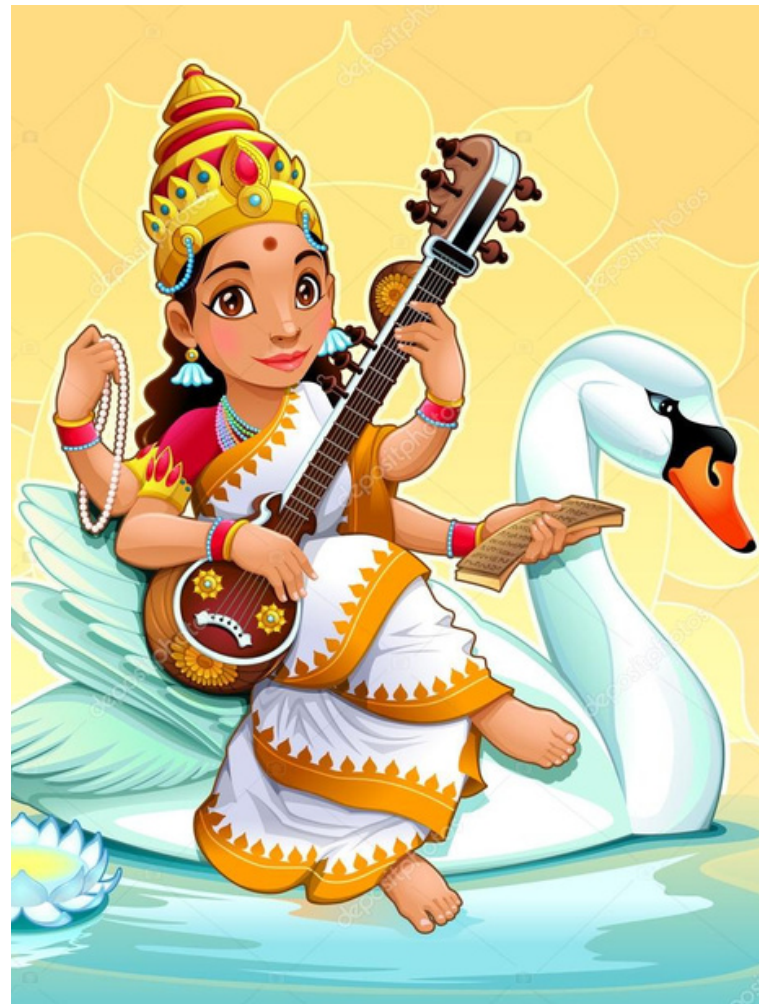

Many people say: 'Don't waste time'. Time is very precious. It does not wait for you. You think that we have more time but you don't have more time. It passes but we do not come to know. We need time to do our complete work. For example, to make any project, we need time and for many more things we need time. Achievements and success are also a matter of time utilisation.

A student cannot achieve success in his studies if he/she wastes time. We have to manage time for other activities. We should be very punctual. We should try to save time. We should try to save time, means try to do a work as fast as we can but not be happy also. We should use every second of time by doing anything like placing our things properly, take care of plants, by helping others. Every second which passes cannot come back again. So, we should utilise time, time is very valuable than anything in life.

MEMORIES BREATHE

Self introspection is necessary for everyday....
that boosts our Energy & Virtues as well as
keeps the Vices far...away..."

Mrs. Vidhi Jain
(HOD ENGLISH)

Last week I saw my visage in a Global magazine NISA, I couldn't believe on my eyes that an article was published on me....

.....And a thousand re collection started to weave their air threads into the woof of my memories...How can I forget the day when I was reciting a Shakespearean poem " The Seven Ages" in class IX ten years ago. The students were reciting the poem and I had lost in the beauty of that poem. I didn't notice when & why a group of 3 to 4 foreigners standing outside my class for a period of forty minutes and listening my recitation of the poem quietly. When I noticed them they were smiling but I was busy in explaining the beauty and the poetic devices of that poem with full confidence and vigour. When the class was over they approached me and asked me about my family and profession. I answered their queries regarding my passion for teaching.

By the words " Mrs. Vidhi Jain does a fantastic job of transporting the kids to a different world...difficult prose is simplified for the studentsshe does everything in her capacity to make things easier for students" these words of appreciation really thrilled & motivated me to work hard for my students.

An institute is not only a building with chairs tables chinks and duster but it is a living and breathing being with several hearts beating together for one mission and aim. As a part of SR Capital Public School I feel myself proud to be a sincere member of SR family since 2 decades.

IMPORTANCE OF READING

Value or moral Education begins at home. The last two years passed with the fear of lockdown causing many problems. In order to carry on a better and harmonious thinking among the people of different institutions Hema foundation initiated to work on this. Through value education workshops, they conducted Online workshops (Jeewan Mooliyon ki Pathshala) for educators and students. These Summer workshops helped the students to understand the different virtues-truth, honesty, bravery, courage, respect and so on. Many students and teachers were rewarded for participating and winning the tasks given to them. This has inspired and the individuals are motivated to adopt the values in life.

Reading is the gateway skill that makes all other learning possible. Reading is one of the best and most beneficial habits one can ever acquire in one's life. Reading is the best source of information and knowledge .It sharpens our vision.

It is said that today's reader's- tomorrow's leaders .It is absolutely true. Books are our best friends. They do not ask anything from us in return. They only give us whatever they have in them. Books give as a lot of knowledge and information that we can use for education and professional success. Books are very good source of entertainment for everyone addicted to mobile and TVs. Nothing can take place of reading good books. Books give us motivation to do things that we think impossible for us.

There may be different books and reason for reading but final outcome of reading is a well balanced informed personality and creative mind with lot of great ideas. Today's highly successful multimillionaires like Bill Gates ,Warren Buffet, Ellon Musk and many more are the result of daily reading. So we must acknowledge the importance of reading and start reading from today.

Mrs. Kalpana Nawani
(TGT English)

TEACHING MY PASSION

I wanted to pursue teaching profession because I love to display a passion for teaching. I believe in my natural instincts. My enthusiasm, skills, abilities, positive attitude with optimistic and buoyant nature guides me to quest teaching as my dream profession. I am always ready to take up new challenges and strive for excellence, which are the basic qualities of a teacher. Teachers are the most important pillars of our society as they make children mannerfull, show them the path of success and makes studies easier and fun-loving. In my view teaching is a profession of great responsibility, it is a mission rather than a job. Thus we can conclude that teaching is a work for some meaningful purpose.

Mrs. ANJU KAPOOR
(Senior Academic Coordinator)

BE OPEN, BE CURIOUS, BE BRAVE, BE A RISK TAKER, BE YOU.

Every morning, the sun rises with endless possibilities that give you endless opportunities to begin again and to create a new journey. Change won't happen overnight and it won't happen by magic until you set the end goal or target.

By taking little steps one by one it's easier to adapt to the change and it's easier to accomplice. We must have a burning desire to learn and to get ahead. Believe in your dreams. If you keep your dream in mind and are willing to work hard, you can make it come true.

Life is about taking risks. But it takes practice, determination and hard work. It takes a different mindset. We just have to open our minds to see them.

Mrs. SANDEEPA TIWARI
(Academic Coordinator)

FUN WITH MATHEMATICS

"POEM ON MATHEMATICS"

Mathematics is full of fun, With so much to learn
Profits are added, While losses are subtracted
Degrees are multiplied, And percentage is divided
Geometry is full of mystery, Algebra has a big history
Integers as different as brothers
Lines are parallel, Angles are similar
Maths is necessary in life, Without it, it is difficult to survive

JUNIOR MATHEMATICTIONS

'Activities give student's a chance to practice what they're learning.' With this fact in mind, a math activity was conducted in our school to make the students learn about perfect square root and number line .

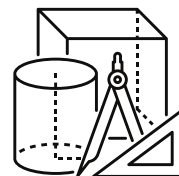

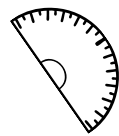

- Number line helps to provide mental strategy for addition and subtraction .They promote good mental number sense and arithmetic strategies and logical thinking.
- Perfect square root activity helped them not only in generating interest in the concept but also in improving mental Maths.

Role of Mathematics in Education

Mathematics is the most beautiful and powerful creation of the human

Mathematics is a fundamental part of human thought and logic. Mathematics provides an effective way of building mental discipline and encourages logical reasoning. Mathematical knowledge plays a crucial role in understanding the contents of the other School subjects such as Science, Social Science and even

Music and Art. Studying Mathematics not only will develop more engineers and scientists but also produces more citizens who can learn and think critically and creatively. The workforce of tomorrow in all fields will demand it

In our school we are following 'learning by doing method'. we have also introduced vedic maths in our curriculum which enhances student's calculation speed, accuracy and concentration.

**Mrs. NISHA SAXENA
(HOD MATHEMATICS)**

How I overcome my Maths fear ?

I would like to share my experience regarding my fear for Maths. When I was in 6th standard, I didn't like Maths at all but now I like Maths. This subject seemed like a nightmare for me. That time, I was highly scared of Maths. I would not even dare to try the problems but after sometime I realized that this subject is interesting and I thought that I can do Maths and my teachers also motivated me. Then, I started practicing Maths daily for 1 hour. Earlier I, could not clear my doubts but then I took my teacher's help to clear my doubts. My Maths teacher explained all the concepts to me again and again. She used to give me questions to solve and I solved them and all this helped me to overcome my fear and it also changed my thoughts regarding Maths. After this, I love Maths very much. Now, I enjoy to solve difficult problems and take more interest in Maths.

Now, Maths is my favorite subject and I love Maths very much.

**SONI GUPTA
X LOTUS**

Why I Like Maths ?

Why I like Maths- Maths is not only a subject it is also a thing that calculates millions of sums.

Quality Maths is logical, black and white, yes or no, true and false. The main thing I love about maths is that there is always a right answer. Maths is so straightforward in its contribution to life. Yes, there may be more than one way to get to the right answer. In the world of chaos, maths stands like a rock. In a world full of changes, and disasters, maths is something that remains the same and continues to grow at the same time.

**TOSHYA GUPTA
IX ROSE**

LEARNING BY DOING

To develop Mathematical skills " Learning by doing" process is adapted in our school. This enhances their problem solving ability. The subject of Mathematics is game of numbers. We perform various Mathematical activities in our School to enhance thinking ability of students.

It gives an effective way to create mental discipline and increases reasoning and logical thinking. The learning by doing process enhances when students relate their subject to real life situations.

Ms. Priyanka Binani
(AT Mathematics)

SCIENCE & TECHNOLOGY

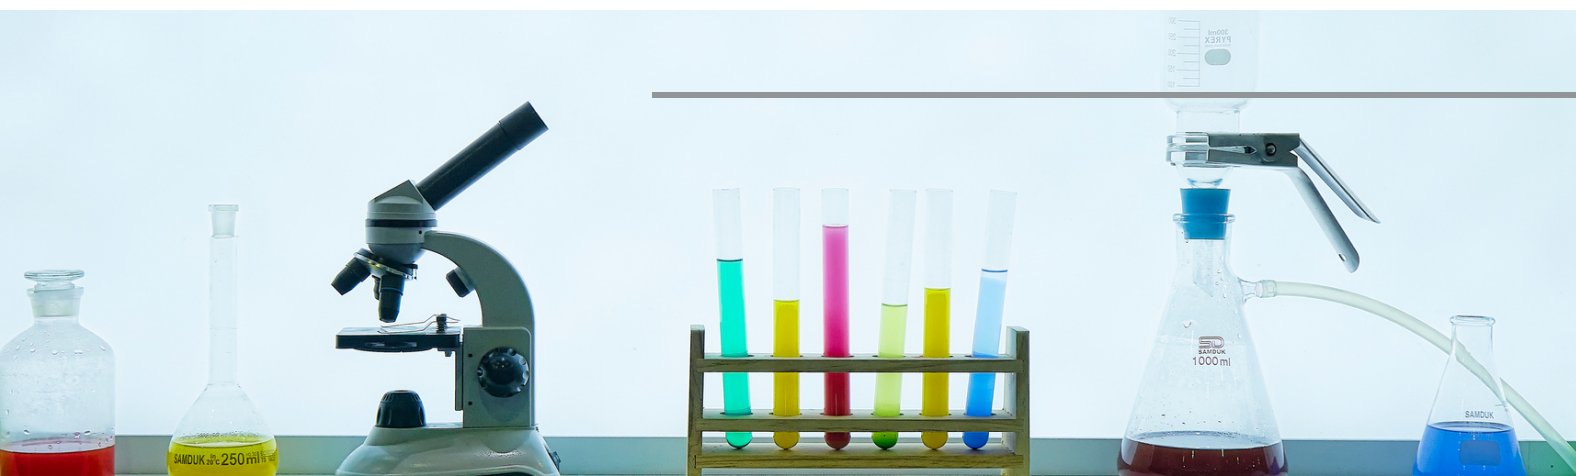

21ST-CENTURY SKILLS IN SCIENCE EDUCATION

We live in a rapidly changing world that is surrounded by new inventions, scientific discoveries, technological breakthroughs, and shifting workforce demands. So in order to survive in this era science is the only ready tool to help combat modern difficulties. Keeping this in mind our government has introduced 21st-century skills in the education sector. It is closely associated with science as it incorporates the 4C's i.e. creativity, critical thinking, collaboration, and communication. These skills inculcate vision into the students that are further applied in their day-to-day activities which foster a deeper understanding of scientific concepts and scientific knowledge. It also promotes informed decisions and communications so that they are able to express their views to one another which allows for teamwork needed to thrive in the workforce of the future. The process of science is intertwined with these applications which have diverse career paths rather than following a single linear career path as chosen in earlier days. There will be more choices, more opportunities, and more adaptability in their future path. I would like to quote stated by our honorable Prime Minister Shri Narendra Modi Ji "The 21st century is the century of knowledge, science and education which has the power to embrace the entire universe."

MRS. SHALINI KUNDU
(HOD SCIENCE)

INDUSTRY 5.0

Industry 5.0 is the next industrial revolution that focuses on the interaction between humans and machines. Its main objective is to merge the creativity of human experts in collaboration with efficient intelligent and accurate machines, to obtain resource-efficient manufacturing solutions compared to industry 4.0. This processor offers companies the ability to increase powerful machines and better-trained experts. Industry 5.0 is a new way of understanding manufacturing that results in productive, economic, and commercial benefits. Therefore, those companies that do not adopt the factory 5.0 model will soon become outdated.

Benefits of Industry 5.0

- 1 It helps to optimize production according to demand.
- 2 Industrialisation makes goods and services more affordable.
- 3 Uses the least resources to obtain high profits.
- 4 It helps in sustainable policies by a minimal generation of waste and its management.

SPACE EXPLORATION
We are the light that travels into space

LIFE BEYOND EARTH

As we all know Earth is going to go extinct after some million years so where will humans live after the extinction of earth?

Top 3 planets which are habitable for human survival

Proxima Centauri :- The planet is also named Proxima b and was first discovered in 2016. NASA has stated that the temperature of the planet is almost like Earth mild enough for liquid water to exist on its surface. Proxima b is a little more massive than Earth

Kepler1649 :- It is also relatively close ,it lies 300 light years away from the Earth. A year on kepler1649 is equivalent to 19.5 Earth days but there are some signs of habitability.

Mars :- Colonization isn't human settlement and long term establishment. Mars today aren't suitable for humans but technology can make it possible some day for the living of Human beings.

RESEARCHES

FINDING DISEASE FROM TEARDROP

Microscopic particles in teardrops offer Intel on what's going on in the body. A biomedical engineer Feiliu studied at Wenzhou Medical University in China says that they wanted to demonstrate the potential of using tears to detect disease. He said that disease can be found by just a few drops and that it's possible that the droplets could open a window for scientists to peer into the entire body, he says that one day it even lets people quickly test their tears at home.

During observation first the researchers collected tears. Then , the team edited a solution containing the tears to a device with two nanoporous membranes and sucked the solution through within minutes; the technique let's small molecules escape, leaving the sacs behind for analysis .

The result gave scientists and eyeeful different types of dry eye diseases shed their own molecular fingerprints in people's tears, the team found. He said that it's just the beginning and also added that tears can express something that we have not really explored.

OUR COUNTRY, OUR PRIDE

SALUTE TO SOLDIERS

“ At the stroke of the midnight hour, when the world sleeps, India will awake to life and freedom.”

Freedom Fighters were those great leaders who sacrificed their lives with fearless courage to bring freedom to the Nation. They faced pains, exploitation, immense torture, and hardships to bring freedom. So, people considered them the epitome of patriotic people. British ruled over India for more than 200 years. Many freedom fighters adopted various ways of fighting against Britishers to attain freedom. Their unimaginable sacrifice, hardships, pains, and hard work gets an eternal salute from people.

They struggled a lot to make India free from Britishers and an independent country. The list of freedom fighters is endless. Some of them are known while others quietly sacrificed their life for the protection of their motherland. At present, whatever convenience and freedom we got in our life is just because of these freedom fighters. Some of the famous freedom fighters are Mahatma Gandhi, Bhagat Singh, Mangal Pandey, Rani Laxmi Bai, Subash Chandra Bose, Jawaharlal Nehru, Chandra Shekhar, who sacrificed their lives fighting for their country.

**Soni Gupta
X Lotus**

Article on Freedom Fighters

Freedom fighters play a prominent role in making our country independent.

Freedom fighters are people who put their whole heart and life to liberate the country. There have been many freedom fighters in India like Mahatma Gandhi, Bhagat Singh, Rani of Jhansi and many others. Today's free India was a dream for the freedom fighters. Their goal was free India where we live now.

Because of freedom fighters we got independence on 15th August, 1947 from Britishers. They are revolutionary and some of them use non-violence as a weapon against the Britishers. They devoted everything to attain independence.

Many freedom fighters fought for the protection of people from the injustice, exploitation and cruelty of Britishers.

"One individual may die for an idea, but that idea will after his death incarnate itself in thousand lives."

A Homage To The Freedom Fighters Of India

"A Free India" - That was your only passion
Thanks to your sacrifices, today we are an independent
nation.
You all were quite intelligent and hardworking
And could have easily led the life of a king
But you chose the life of danger and struggle
To liberate your motherland from the British government's
shackle
You relentlessly fought against the world's greatest colonial
power
And successfully helped to blossom India's independence
flower.
India will always remain grateful for you peoples' supreme
service
You are Mother India's golden children, whom we will always
miss.

Quarantine by a kid's view

Children were very happy to hear the news, not about quarantine and Covid-19 but that they won't have to go to school.

Most of the children just thought of this quarantine as a very surprisingly large vacation while many suffered from grievances because of losing their precious loved ones.

However most of them were still unaware of the real reason for quarantine. But the children were not happy for a long time. Soon online classes were introduced and once again children were devastated.

After some time many began to realize how lonely and boring this kind of life is and wanted to return to school. Not only, they wanted to study but also wanted to meet their friends.

Although nowadays you can talk to anyone at anytime on mobile phone, many children were not satisfied just by talking to their friends

Now the question arises, "why do children have so many problems after all they are supposed to have no problems" that is what adults think but unfortunately that is totally untrue. Children have many problems in their lives. Many people disregard their problems, especially the difficulties they had to face during Covid-19.

Although the problems in children's lives are not as big and major as in adults but it still affects them a lot.

So, I hope nobody disregards children's problems and try to help them by all means. Everybody can do at least that much as an adult for the wellbeing of somebody's precious son or daughter.

MEDIA A POWERFUL TOOL

Development in Media, Transport and Communication

Media has become a powerful tool for the propagation of ideas and understanding of history. The use of media shapes the way people perceive and respond to information about past events.

During the 1940s, the media industry developed rapidly. Technology began in Britain, which eventually gained place in international scenario. Transport also experienced rapid changes with innovative designs.

After Independence, India witnessed unprecedented economic growth and industrial development. This was mainly due to the infusion of capital from foreign sources, especially the United States. Improvements in media, transport and communications in India was tremendous, based on its enormous influence on commerce, economy and politics.

Today, the media has become a tool to reach maximum number of audience. With the help of modern technology, we can showcase the talent of students and upgrade their skills. People use social media like Facebook, Twitter, Google and many others to inform people about their thoughts, views and beliefs and it instantly connect to the people.

MS. VAISHALI SHARMA

मन की उड़ान

रक्षाबंधन

रक्षाबंधन आया रक्षाबंधन आया,
खुशियों का त्योहार लाया।
जो भाई अपनी बहन से कभी ना मिल सका,
वह आज के दिन उसके लिए उपहार लाया॥

भाई आया बहन के घर,
बहन खड़ी हाथों में लेकर मिठाई फल।
बहना अपने हाथों से थाल सजा कर लाई,
भाई को खिलाई उसने खीर व मिठाई॥

जब भाई को देखा खुश हुई बहना,
भाई लाया था उपहार में उसके लिए गहना।
बचपन की प्यारी सी नोक-झोक भाई बहन को याद आई,
देख एक दूसरे का चेहरा,
मुस्कुराए दोनों बहन भाई॥

राखी आई, राखी आई,
खुशियों का त्यौहार लाई॥

राधा परमार
नवीं सूरजमुखी

वृक्ष, तेरी यही कहानी

आंधी-पानी और धूप की,
मार रोज़ यह सहता है।
इतने पर भी किस
तरह हरा-भरा वह रहता है॥

संतो जैसा काम है इसका,
हरी-भरी है काया।
पास तुम्हारे जो आता है,
उसको मिलती है छाया॥

धरती का रस खींच-खींच,
सबको बाँटा करता है।
दानवीर! तू धरती का,
फल, फूलों से भरता है॥

तुझको पाकर है चलता,
लाखों लोगों का व्यापार।
किंतु स्वार्थवश लोभी मानव,
तुझको काटता अंधाधुंध॥

बनता है पतवार,
जिंदगी की नौका खेता है।
मर जाने पर भी मरघट तक,
साथ तू ही देता है॥

सौम्या जैन
नवीं सूरजमुखी

उड़ चलूँ मैं

जी चाहता है, कि पंछी बन जाऊँ मैं।
आसमान की ऊँचाइयों तक पहुँच जाऊँ मैं॥

कविता बनकर सबके दिलों में छा जाऊँ मैं।
एक मीठा सा सपना बन जाऊँ मैं॥

कल की ना सोचो बातें बेफिक्र।
खुशियों के गीत गाऊँ मैं॥

नींद बनकर बच्चों की आँखों में बस जाऊँ मैं।
आँखें खुले जब उनकी तो प्यारे खिलौने बन जाऊँ मैं॥

मुसीबतों से ना घबराऊँ मैं।
तलवार बन कर कठिनाइयों का सामना कर जाऊँ मैं॥

सूर्य बनकर शक्ति का प्रकाश फैलाऊँ मैं।
चाँद बनकर शीतल चाँदनी बरसाऊँ मैं॥

जी चाहता है कि पंछी बन जाऊँ मैं।
आसमान की ऊँचाइयों तक पहुँच जाऊँ मैं॥

बिना यूनिफार्म के स्कूल

बड़ा मजा आता अगर स्कूल में यूनिफार्म ना होती, कभी किसी को पता न चलता कौन स्कूल आता और जाता। सुबह सुबह उठकर हम जूते पॉलिश ना करते, यूनिफॉर्म की मेंटेनेंस से भी हम बचते नए। स्टाइल से व्यक्तित्व में और निखार आता, चिल्लेकस होकर हर बच्चा कूल डूड कहलाता। ईश्वर ने अलग बनाया तो क्यों चले पुरानी रीत, यूनिफॉर्म से नहीं बल्कि विचारों से ही यूनीक।

लक्ष्य शर्मा
पांचवी गुलाब

सुविचार

- मनुष्य की सबसे बड़ी संपत्ति उसका "मनोबल" है।
- अगर "सीखना" चाहो तो हर असफलता कुछ सिखाती है।
- "ज्ञान" में पूंजी लगाने से सर्वाधिक ब्याज मिलता है।
- जब आप "जाग" रहे होते हैं , तभी सर्वश्रेष्ठ स्वप्नों का सृजन होता है।
- हमारी समस्या का समाधान किसी के पास नहीं है, सिवाय हमारे।
- गलतियां क्षमा की जा सकती है , अगर आपके पास उन्हें स्वीकार करने का साहस हो।
- "विश्वास" वह पंखी है जो प्रभात के पहले ही प्रकाश देखना शुरू कर देता है।

प्रिंसी शर्मा
तीसरी - कमल

मेरा स्कूल

देखो देखो स्कूल खुला है ,
चलो पढ़ाई करने को।
झगड़ा छोड़ो ,वक्त नहीं है,
अभी लड़ाई करने को।।
मेरे स्कूल सा ना कोई दूजा ,
सरस्वती माँ की होती पूजा।
कितना सुंदर मेरा स्कूल ,
इसमें रंग-बिरंगे हैं फूल ।
फूल सुहाने सबको भाते,
उन्हें देखकर सब ललचाते।
गुरु हमारे पाठ पढ़ाते ,
नई-नई बातें सिखलाते।

संचिता जैन
कक्षा चौथी ट्यूलिप

क्या है माँ!

क्या है माँ! कैसे समझाऊँ मैं,
इस दुनिया को कैसे माँ की परिभाषा बतलाऊँ मैं,
वह शक्ति है, वह भक्ति है, वह जगत जननी है माँ
वह प्यार है, दुलार है, कभी-कभी सख्ती है माँ,
फूलों पर पड़ती ओस की बूंद सी है माँ,
हर मनुष्य के जीवन में पहली गुरु है माँ,
खेतों में लहराती फसलों सी है माँ,
ऊँचे पहाड़ से गिरते झरने सी है माँ,
हर कदम पर बच्चों को राह दिखलाती है माँ,
हर रिश्ते में ही तो नजर आती है माँ,
बंद रहती है हमेशा फिर भी खुली किताब सी है माँ,
शब्द नहीं है माँ के लिए मेरे पास,
मैं निशब्द हूँ माँ।

मैं खुशल गुप्ता कक्षा दसवीं का छात्र हूँ। मेरी बचपन से ही यह इच्छा थी कि मैं बड़े होकर गणित में पीएचडी करूँ क्योंकि मेरी गणित में रुचि है और इसी रुचि को आगे बढ़ाना चाहता हूँ। मैं इसलिए गणित पढ़ना चाहता हूँ क्योंकि बचपन से ही मैंने जब से यह सुना था कि शून्य का अविष्कार भारत ने ही किया था, तभी से मेरी यह इच्छा और प्रबल होती गई कि मैं भी समाज को गणित का ज्ञान दूँ। विशेषकर उन्हें जो अभी तक समाज में अशिक्षित हैं उन्हें गणित का ज्ञान देकर उनके दैनिक कार्य में सहायता मिले। जो निरक्षर हैं उन्हें गणित का ज्ञान मिले और जीवन में वे अशिक्षित ना रहे। मैं समाज व देश के लिए कुछ करूँ यह मेरी दिली तमन्ना है।

(कक्षा दसवीं)**

अब तो बदल जा

ऐ इंसानी ताकत अब तो बदल जा,
प्रकृति पर मत कर सितम,
स्वच्छ भारत अभियान चल रहा है ।
अब तो बदल जा , अब तो संभल जा ।
हमें इसी हरित प्रकृति में रहना है,
जल ,वायु ,आकाश के तले जीवन जीना है,
वातावरण को दूषित ना कर ।
अब तो बदल जा , अब तो संभल जा ।
प्रकृति जब अपना कहर दिखाती है,
इंसानी ताकत वही मिट्टी में मिल जाती है,
गंदगी का पहाड़ मत बना ।
अब तो बदल जा ,अब तो संभल जा ।
कूड़ा फैलाकर गंदगी तू खुद ही फैलाता है,
बदबू ,मच्छर और अनेकों बीमारियाँ तू ही तो बुलाता है,
दोष मड़ता है तू सरकार पर ।
ऐ नादान इंसान, अब तो बदल जा , अब तो संभल जा ।

DIGITAL EVOLUTION

World without Computers

We can't imagine our life without computers because it is an essential device which is present in each and every house, office and in school. It is also because now human beings are dependent on technology more than physical work.

Our household appliances are already embedded with and running with tiny computer boards with software written to it to enable its intelligent controls. These days we are dependent on computers from alarm clocks to AI. Just like there will be a digital radio alarm to wake us up for work on time every day.

If there were no computers, it is quite possible that some people might have a sigh of relief because there are some trades that do not require the use of computers. In other words, their lives or livelihood will not be unaffected anyway. But for the rest of us, life will become a dull black and white with shades of grey in between.

So to imagine a life without computers we would have to go back to those years when computers were not made.

Role of technology in educational system during covid-19

The COVID-19 has changed the view of education around the world. During the mid-march all the schools and colleges were shut down to save faculties and students from infection but information technology is playing a great role to support education during COVID-19 lockdown. Due to the use of Information technology at large scale in various countries, this is the best time of innovation of new ideas on the digital platforms for delivering education. This paper presents various tools and techniques to continue quality education while lockdown through digital media.

Technology also helps students to remain inter connected all the time. In this way they can solve and discuss their problems whenever they wish to. The teachers too can always help them out

The teacher is more of a guide who motivates students to experiment and learn. Moreover, with the help of technology, the students can remain updated about the latest information relating to their studies.

Use of technology in the classroom also prepares the students for the real world.

DIGITIZATION

EXPERT SYSTEM

Artificial Intelligence

Artificial intelligence is being utilised for so many things and has so much promise that it's difficult to imagine our future without it, related to business. Artificial intelligence technologies are boosting productivity like never seen before. AI improves organisational efficiency while lowering the risk of a mistake, and it identifies spam and frauds instantaneously to alert organisations about suspicious behaviour. Artificial intelligence is already being used in many aspects of life, such as self-driving cars in the coming years, more precise weather forecasting, and earlier health diagnoses.

In the early twenty-first century, no place had a larger influence on AI than the workplace. Machine-learning techniques are resulting in productivity gains that have never been observed before. AI will be prevalent in everyday life by 2030.

We're already seeing artificial intelligence in our smart devices, cars, healthcare system and favourite apps, and we'll continue to see its influence into many other industries in future.

Cyber Security

" Technology is the best as it brings people together securely "

Cyber Security means protecting data, networks, programs and other information from unauthorized or unattended access, destruction or change. In today's world, cyber security is very important because of some security threats and cyber attacks.

After the U.S. and China, India has the highest number of internet users. Not only the government but also the citizens should spread awareness among the people to always update your system , network security settings, use strong password and to use proper anti-virus software so that your system and network security settings stay virus and malware free.

Measure to prevent from cyber crime:-

1. Use strong passwords.
2. Control access to data and systems.
3. Use security software.
4. Update programs and systems regularly.
5. Put up a firewall (gatekeepers).

Kanika Jain

" The more systems we secure, The more secure we all are "

IT REVOLUTION

The IT Department must a key role facilitating, providing, and supporting new technologies, with the objective to integrate, foster, and promote the development of imagination, creativity, and innovation in students, teachers and staff.

The technology has truly improved, and continues to evolve as the education system has undergone a paradigm shift from where it used to stand years ago. In the olden days, students had to go to the library and open big books to find the information they needed. In the 20th century, one would find thousands of results for the same things they need—in just a fraction of a second just only in a single click.

Technology has been tagged as the “silver lining of our education system”. We are in an era of technology and digitalization. Let us maximize all of these and continue to help each other and find solutions to the challenges being faced by the education sector.

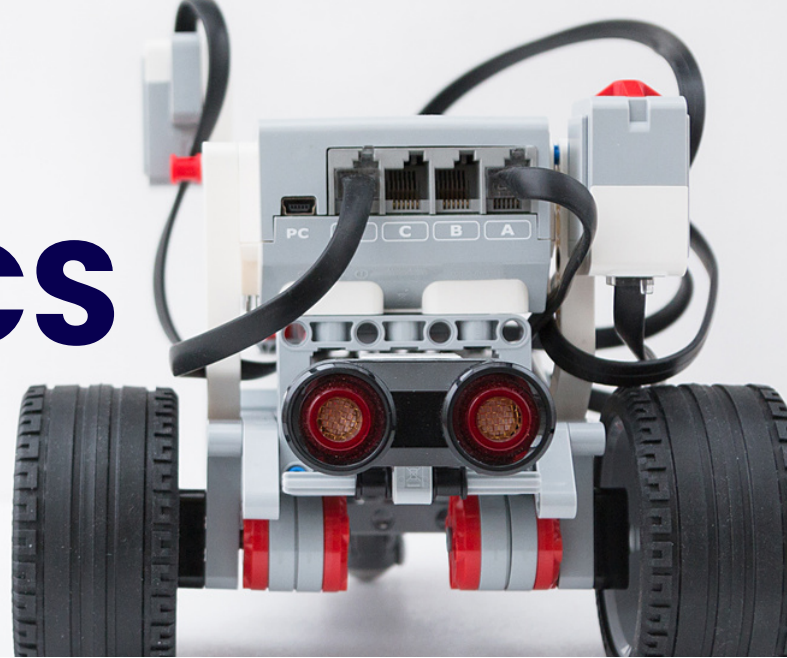

Technology bridges the gap between quarantine and teaching during pandemic when we were far from our workplaces and students were far from schools and colleges.

The main role of IT in schools must be “to innovate”. Tech support will continue to be needed; and if the tech team is not innovating or looking for ways to innovate, to propose, and implement creative ideas to improve education, the school will be losing essential elements of 21st Century.

ROBOTICS

COMPUTER SCIENCE IN INDIA

Computer Science has changed the way we live our lives in many ways. From non experts to professionals, computer science has touched everybody's lives in some way or the other. Computer engineers strive to make our life faster, easier and more organised. The number one benefit of information technology is that it empowers people to do what they want to do. It lets people be creative. It lets people be productive. It lets people learn things they didn't think they could learn before, and so in a sense it is all about potential. I feel privileged to be a part of this community that plays a major role in advancements of human lives. Computers and technology have now become the buzzword of every field – whether it is entertainment, business, production or medicine, computers are everywhere, making people's jobs much easier and the end results of their efforts more reliable. In India particularly, the landscape of development in the last three decades has definitely been dominated by the IT sector. The sector has generated employment, created a new cadre of professionals, and placed India firmly on the world map. I believe that aspiring professionals from this sector will continue to have a definite role to play in India's immediate future.

ROBOTS IN HEALTHCARE SECTOR

Robots can provide more accurate results in tests and diagnosis than humans. Robots are now used not only in the operating room but also in clinical settings to support health workers and enhance patient care. During the COVID-19 pandemic, hospitals and clinics began deploying robots for a much wider range of tasks to help reduce exposure to pathogens. It's become clear that the operational efficiencies and risk reduction provided by health robotics offer value in many areas.

In the next upcoming years , Robots will immensely help in doing household chores that would save a lot of time and energy. Having help from robots in their everyday work, people will have more balance in their work and personal life.

IT'S MIND CARE

Think positive and let the world serve you best

You can overcome your lack of confidence

AS A SCHOOL COUNSELLOR, WE PLAY DIFFERENT ROLES IN STUDENTS LIFE SOMETIMES AS A TEACHER , MENTOR , VOLUNTEER AND SOMETIMES AS A FRIEND ALSO. BY PERFORMING THESE CERTAIN ROLES, WE TRY TO BUILD A TRUSTWORTHY AND STRONG RELATION WITH THE STUDENT. SO THAT, THEY CAN FREELY SHARE THEIR PROBLEMS WITH US OR CAN TELL US WHAT'S ACTUALLY STOPPING THEM. WE HELP THE STUDENTS TO REACH THEIR POTENTIAL SO THAT THEY CAN ACHIEVE THEIR GOALS AND DO THE BEST IN THEIR LIVES.

Going to a **School Counsellor** should be as normal as going to the **Doctor**. Let's end the **STIGMA**

Ms. Japsi Ahuja
(School Counsellor)

POWER OF SOCIAL MEDIA

There is plenty of research showing social media's growing impact on people, communication, and society.

Mrs. Santosh Kumari
(Social Media Coordinator)

Social media has been in the boom for the last two years now. Pandemic taught us a lot about internet and information technology in the times when everything was happening virtually, infact virtual was the real for those times. We can't predict if it can happen again or not, but we can't close our eyes and avoid it. Social media is a powerful tool to stay connected to even those people who are important but we can't meet them regularly. Time is precious and information is even more precious in our times. Considering these facts in mind SR Capital Public School took the initiative of organising a Social Media Team. This team works unitedly to provide the latest information related to education, other related fields and activities conducted in the school. Recently SR Social Media Team organised online contests for SR students and they won prizes for the same. In this way the students also learn the online procedure of participating in a contest. Stay connected to us and keep liking and sharing us on Facebook, Instagram and Tweeter.

EFFORTS FOR UPLIFTMENT OF CLASS X RESULT

"Success is the result of perfection, hard work, learning from failure, loyalty and persistence" It gives us immense pleasure to share the news that performance of class X in academic year (21-22) remained 100 percent. It has become possible because of valuable guidance given by our Respected Principal Ma'am, Managing Director Sir, Vice Principal Ma'am and senior Incharge Ma'am. Extra classes were given to the students according to their performance in pre board exams. To cover the loss of studies during pandemic, bridge course was introduced in all classes which remained very effective for our students. Practice of case study based questions, Assertion reasoning questions were also given by the teachers. For clearing their concepts, worksheets based on tricky questions were provided to the students time to time to make them enable to do well in the board exams. In our school for improving class X result, teachers set goals and work towards achieving them. Motivation is given to the students to perform better.

To improve grades, our teachers remains in touch with new exam techniques and motivate our students to manage their time effectively to come up with the best of their capacities.

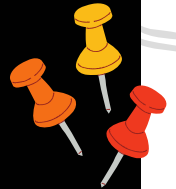

PARENTS HUB

"Remember this: Be kind to your mind."

Mrs. PRAGTI TIWARI

Being parents, we can not fail to fulfil our responsibility in nineteen hours at home and only expect the teachers of our kids to work miracles with them in five hours. Lets join hands together for the all round development of our children so that they believe in themselves, be a good human being, contribute to humanity and make the world a better place to live in.

Mrs. SHIPRA JAIN

My name is Shipra Jain and i am Shreyans's mom. This is my perspective on SR Capital Public School. This school has congenial and learning atmosphere which makes it one of the best learning environment for kids. And the teachers are also brilliant and hard working. They make study fun and easy for the children. The functions organized and their recordings are also as good as learning system. The security is also great. They take care of our child and never let them to go out of school without permission. As we know that All work and no play makes jack a dull boy so the teachers motivate the children to take initiative in different extra curricular activities. I am really glad that my child is a part of SR Capital Public School.

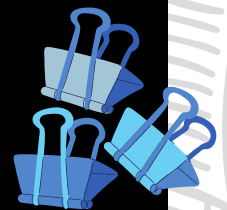

Mrs. MANJU AGGARWAL

Respected faculty,

Fantastic school, I made the best choice to enroll my twins In SR Capital school. The teachers are professional, caring and well organized. All are doing wonderful things to sharpen the knowledge of our wards by using new technologies. I am really thankful to all teachers and supporting staff of school who are involved to provide their best efforts to give education, curricular and physical activities to our children.

For all the efforts I m totally thankful and feeling blessed that my wards having such a wonderful faculty

PARENTS HUB

"Remember this: Be kind to your mind."

Mrs. NEERU JAIN

I am Neeru Jain. My daughter Pakhi Jain is studying in SR Capital Public School. I am glad to tell you that this school is one of the best school in the town. We as a parent draw deep deep satisfaction when we see our child growing up to the self confident, independent and self reliant with the very positive outlook. All the teachers and staff played a pivotal role in shaping her personality and I'm grateful to them for their sincere efforts in preparing my child for her bright future ahead.

Mrs. NEETU CHADHA

I am mother of Mehul studying in this school. I am delighted in addressing you all. I believe S.R Capital Public School has been trying it's best to engage the students in the most constructive, exciting and creative way. I feel extremely glad to see the esteemed staff working tirelessly for their students. I take this opportunity to thank S.R team for their hard work and unstinted support. Thank you

Mrs. BHARTI GUPTA

I am Bharti Gupta mother of udit Gupta. I am glad to tell my views for S.R Capital Public School. After the Corona, when I was looking the school for my kids, I was very much worried but today I feel immense pleasure to say that I opt the best school as it provides all the facilities and activities which I was looking for my kids. The staff and management are very approachable and cooperative. Moreover they listen and implement the feedback for the students betterment. I am very grateful to the school for providing the rich learning environment.

WHAT DELEGATES SAY

MR. A VINOD KARUVARAKU

MEMBER, NATIONAL MONITORING COMMITTEE
FOR EDUCATION (SC,ST, PWSN & MINORITY)

"This school is aligned with the ethos of National Education Policy 2020. The projects initiated by the school like Atmanirbhar Bharat Project, Projects encouraging Eco-friendly life such as the use of Herbal Colours, Home for Birds, etc. This school is preparing patriots who will contribute towards Nation Building. My best wishes are with SR Capital Public School."

MR. MAKKE LEPPÄNEN

FINLAND EDUCATION
MODEL CONSULTANT

" I am totally amazed to meet the children at SR Capital Public School. The Education Model at this school is equivalent to the Model of Education in the schools of Finland. My best wishes are with Mr. Lakshya Chhabaria and his team for the future endeavor."

WHAT ??? DELEGATES SAY

श्रीमान वृषभ प्रसाद जैन
(प्रोफ़ेसर एवं निदेशक महात्मा
गांधी अंतरराष्ट्रीय हिंदी
विश्वविद्यालय, वर्धा)

" मुझे खुशी है कि, एस आर कैपिटल पब्लिक स्कूल में भाषा पर पूरा ध्यान दिया जा रहा है। बच्चों में भाषा से भाव जागृत किए जा रहे हैं। भाषा केवल मनुष्यों को ही पहचान नहीं देती है, बल्कि संसार की वस्तुओं को भी पहचान देती है, इसलिए उन वस्तुओं के भिन्न-भिन्न नाम भी होते हैं और इन वस्तुओं के माध्यम से ही मनुष्य को संसार से जोड़ने का काम भी करती है, इसीलिए संसार और मनुष्य के बीच की सेतु है भाषा। "

MR. K GOPAL REDDY
(EDUCATIONIST
FROM HYDERABAD)

"I am happy to see the confidence of the children and the warm greetings from the management and teachers. This school is providing high-quality education at an affordable fee structure. I have learned so many things from this school that I will implement in my chain of schools in Hyderabad."

मासूम बचपन

बचपन ना आएगा दोबारा देखो पड़ेगा पछताना

क्योंकि बचपन ना मिलेगा दोबारा,
छोड़ दो ये मोबाईल,
जाओ खेलो बाहर।
मौसम कितना है सुहाना,
देखो पड़ेगा पछताना।।

सीखो बारिश में कागज की नाव बनाना,
क्योंकि बचपन ना आएगा दोबारा,
बचपन ना मिलेगा दोबारा।।
